

imageRUNNER ADVANCE DX 6800 Series

CONNECT SECURELY, TRANSFORM DIGITALLY

OPTIMUM PERFORMANCE AND UNRIVALLED USER EXPERIENCE FROM INNOVATIVE TECHNOLOGIES

The future of business is digital. Canon imageRUNNER ADVANCE DX is a new generation of smart multifunction devices, designed to support and accelerate every step of your digital transformation. Built with Canon's imageRUNNER ADVANCE DNA, state-of-the-art technology and software work hand-in-hand to digitise, automate and optimise content-centric workflows. As always, we're continually evolving our technology to ensure you feel safe and confident when using Canon devices.

Canon's imageRUNNER ADVANCE DX 6800 Series offers fast and reliable printing and scanning, intuitive workflows and efficient document processing. Perfect for education and legal markets, secure and sustainable devices minimise downtime and service costs with simple serviceability. Plus, reduced energy consumption and quiet operation allow devices to fit seamlessly into hybrid workspaces. uniFLOW Online Express comes as standard, delivering centralised print management and cloud connectivity that enables document access from anywhere, at any time, from any device.

New to the Line

Canon uniFLOW Online
Outstanding Cloud Output Management Solution

Canon

imageRUNNER ADVANCE DX 6800 Series

CLOUD CONNECTIVITY

- Cloud-based software-as-standard uniFLOW Online Express (uFOE) offers a single integrated solution to increase device security and simplify print management
- Scan and print documents from any location with enhanced cloud connectivity, offered with re-usable print formats for ease of use
- Canon's MEAP platform optimises processes by integrating with document capture and output management solutions and various applications such as uniFLOW Online*, AirPrint, Mopria, Universal Print by Microsoft and Canon PRINT Business app

SECURITY

- Combination of Verify System at startup and McAfee Embedded Control ensures device functionality is never compromised from the tampering of firmware and applications, all in real-time
- SSD data storage with cloud back-up means device settings can be quickly restored
- Updated TPM 2.0 (Trusted Platform Module 2.0) comes as standard for securely storing encryption keys, such as passwords, and protecting the device from external attacks
- Set up device authentication, two-factor authentication and device function restrictions for both device and cloud-based security measures
- Upgrade to uniFLOW Online* for enhanced secure printing, mobile printing, and guest printing from any device

PRODUCTIVITY

- Rapid printing and scanning, with up to 70ppm print and 270ipm scan speeds
- Reactive first copy output minimises downtime for users and improves productivity for print and scan jobs
- Cloud-based features like Filing Assist from uniFLOW Online* accelerate digital transformation with automatic document filing
- Minimal device interaction is enabled through the Canon PRINT Business app or integrated timeline on the Home UI, which streamlines frequently-used processes and maintains productivity with flexible hybrid working
- Anti-streak, multi-feed detection, and blank page removal reduce processing time and improve scan performance
- Batch scan different sized documents with the same width (A3, A4, A4R & A5) thanks to greater support for smaller and mixed paper types
- Enhanced Eco Staple finishing reduces preparation and management time for documents
- Alleviate concerns for physical device operation, without compromising user experience, by applying** optional antimicrobial film to all common touch points
- Utilise the Instant Stapler accessory to boost workflow productivity with stapling of up to 50 sheets whilst minimising physical touch - small enough to fit on top of devices or desks, anywhere within the office, home and co-working space.

SUSTAINABILITY

- Reduced motor operation time and control decrease power consumption to save energy
- Enhanced toner technology features a lower melting point, requiring less energy when the device is active
- 43% reduction in device weight*** lessens materials in manufacturing and downsizes transportation requirements
- Noise disruption is minimised with acoustic insulation and reduced vibrations dampening operation sound
- Cut down waste with high-quality error-free scanning, including digital de-skewing and advanced stain-resistant glass
- Go staple-free for sustainable printing, with eco stapling up to 10 sheets (A3 and A4 52gsm to 64gsm)

SERVICEABILITY

- Save costs and increase device uptime with innovative enhancements to frequently-replaced hardware parts as part of our evolving imageRUNNER ADVANCE DX portfolio
- Consumable life prediction allows parts to be replaced systematically to reduce service costs
- An IAP (Insulated & Air Pressure) toner bottle is cleaner and easier to replace, mess-free, without a technician
- User tutorials can be accessed on a mobile device via QR codes on the touchscreen
- Lighter device weight reduces installation time, so users can start using the device more quickly

*uniFLOW Online is available as a Device Based Cloud Subscription for Document Output and Capture Management. Based on business needs, users can upgrade to uniFLOW Online to unlock a range of advanced benefits, including: Increased security with user authentication methods. Personalised workflows to enhance productivity. Reduced wastage by releasing jobs at the device. An intuitive cloud dashboard to leverage real-time data. Greater control over access and usage to reduce print costs.

**It's recommended that the film is applied by a Service engineer.

***compared to iR-ADV DX 6700 Series

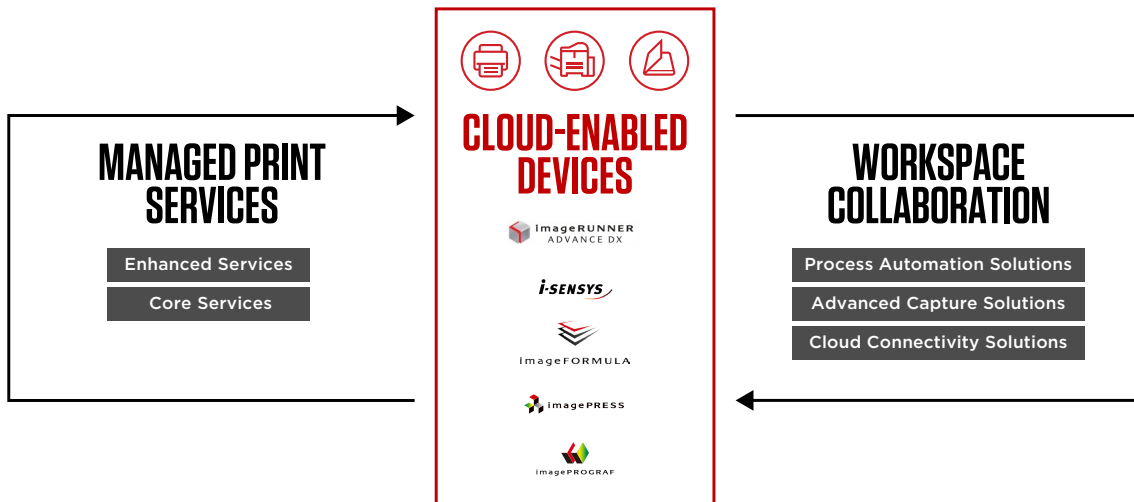

NOTE - Certain features are only enabled with the combination of imageRUNNER ADVANCE DX and uniFLOW Online

QUICK FACTS

- **Format:** Mono A3
- **Paper Supply Capacity (Max):** 6,350 sheets
- **Warm-up time:** 4 seconds or less (Quick Start Mode)
- **Finishing Capabilities:** Collate, Group, Offset, Staple, Saddle Stitch, Hole Punch, Eco Staple, Staple On Demand
- **Supported File Types:** PDF, EPS, TIFF/JPEG, and XPS
- **Print speed:** 60-70 ppm (A4)
- **Scan speed:** 270 ipm (A4)
- **Print Languages:** UFR II, PCL6, Adobe® PostScript 3™ (optional)
- **Print Resolution:** 1,200 x 1,200

- High productivity is enabled with best-in-class print speeds and innovative scan technology
- Enhanced finishing capabilities and more paper type support improves media handling and production quality
- Work safely and conveniently in hybrid environments with device features such as, personalised user timelines and protective antimicrobial film (optional), as well as mobile printing and scanning from applications like the Canon PRINT Business app
- Device reliability is assured by enhanced serviceability, with quick installation and easy maintenance
- Automated scan, search and store workflows efficiently digitise documents with applications such as OneDrive, SharePoint, Concur, Dropbox
- Cloud software uniFLOW Online Express (uFOE) helps maintain continuous productivity across hybrid working
- Reduce environmental impact and workplace disruption with quieter printing and scanning
- McAfee Embedded Control alongside with other security features offers complete peace of mind and 360° protection covering document, network and device

TAILORED SOLUTIONS TO MEET EVERY CHALLENGE

Canon's Digital Transformation Services (DTS), bring together our leading hardware and software into an integrated technology ecosystem, designed to support your transformation journey. This offering combines Managed Print Services and Workspace Collaboration solutions, to help you gain transparency and control over the entire document lifecycle.
